

THE FATE OF GARMENT WORKERS

1. Mon, Tue, Wed, Thu, Fri and Sat; the workers are in the factory. On Sundays we work overtime so we have no rest; if we are absent we will get a warning from the factory.
2. Garment workers have no rest; we are away from our parents and friends; we struggle to work even our hearts suffer; so that the lives of our families will be peaceful.
- R. We are insulted by society; there is no pity for garment workers like us; we work from early in the morning till the dark of night; we work very hard to earn a few US dollars.
3. Others say garment workers have a bad reputation; because we are poor and our neighbours insult us - that we are not good; it hurts us and this is the fate of garment workers.
