

# The Struggle

I Workers' life is a struggle  
We are working hard everyday  
Employers oppress and give us no rights and freedom  
Workers are suffering

II Come, workers come to join the struggle  
Come, workers come collectively  
Even we suffer, we still keep fighting because there is fire inside our heart

## Chorus

We must struggle even we have to cross mountain or sea  
Marching together and struggle every time  
Solidarity bring us victory

III The old saying "a bunch of chopsticks is hard to break"  
Victory never gets so easy  
Oh workers, please join the struggle

## Chorus

Where the oppression are  
The workers must stand up  
Fight back every time  
Solidarity brings us victory

III The old saying "a bunch of chopsticks is hard to break"  
Victory never gets so easy  
Oh workers, please join the struggle
