

WE WORK TOGETHER TO PROTECT OURSELVES FROM HIV/AIDS

- I-** Today we are very happy. Men and women all over come together to protect themselves from HIV/AIDS. We can protect ourselves. If we are not careful, HIV/AIDS will infect us.

- II-** Don't forget to use condoms. It doesn't matter where you have sex, in the countryside or anywhere. HIV/AIDS can still infect if you don't use a condom.

- III-** Please do not discriminate against people who have HIV/AIDS. They are also human beings. They want to live well and survive. We can protect ourselves.
