

## WOMEN NETWORK FOR UNITY

- I-** Friends, have you heard about the Women's Network for Unity?
- II-** Yes, yes we know, but we are not clear about the objective of the network.
- III-** If so, please listen to me. The Network is working towards building solidarity and educate other sex workers how to protect themselves from HIV/AIDS. Because we are sex workers, we know more than others what this means.
- IV-** Oh, the Network is excellent. It helps women empower themselves, as a united collective force.
- V-** So, don't hesitate to hold together to extend the Network, and all together we can fight for rights, dignity and respect
