

SADNESS OF A KARAOKE GIRL

- I- Karaoke girl's life are not bed, every body must not curse or look down on us because we also want to live in happiness and wish to be free as you but can't. So you must have a pity on and forgive us.
- II- We do everything for our family, we have never cared a bout our heath. if someone need our life, we will sell it. I expected that many people would do like us. Because we want our parents, sister, grandparents and brothers to be happy not are in trouble.
- III- We sing this song in order to ask everybody, please forgive and have a pity on women who are in trouble like us. You must be remembering that we are only human and that everyday we face poor unsheltered life and full of sadness. No one could avoid this.
- IV- However we work as sex worker or Karaoke girls, it is not illegal work because every woman has the same rights to work. Finally, we would like to call for support and to say "Every one has rights to be equal" and we would like to leave this message to the next generation.
